

## Guideline for Two days online workshop on “Preparing School for Accreditation”

**New Education Policy (NEP)-2020** has envisioned creation of architectures for accreditation of schools and for furtherance of this agenda, blue Print has been suggested for creating ecosystem of school accreditation. NEP-2020 has signified the importance of school accreditation and has enjoined upon concerned govt. functionaries to evolve ecosystem of school accreditation by reflecting over learning experiences gained in last decades regarding policy interventions for evaluation & monitoring of school quality. It has provisioned of independent body for accreditation of schools at State level i.e. SSSA (State Schools Standard Authority) which will be engaged in execution and regulation of school accreditation. Government has realized that without nudging schools at micro level and creating enabling and competitive environment at micro level, tangible improvement in delivery of school education will be utopia.

**National Accreditation Board for Education & Training (NABET)** is a constituent board of Quality Council of India (QCI) New Delhi, a National autonomous accreditation body under DPIIT, Ministry of Commerce and Industry, GoI. NABET-QCI is actively working in the domain of School Accreditation since 2007 and has developed “Accreditation Standard for Quality School Governance”. NABET-QCI has assessed and accredited 6000+ schools across country and abroad. Drawing upon expertise in evaluation and accreditation of schools, NABET-QCI has initiated two days online workshop namely “**Preparing School for Accreditation**”. This workshop will cover:

- A. **Understanding implementation of Accreditation Standard in school:** The objective is to sensitize participants on fundamentals of school accreditation (pillars, set of standards and related indicators/parameters etc.). Some of the parameters are mission, quality objectives, documentation, action research, data analysis, self-assessment, innovation, benchmarking, etc. Understanding these aspects of accreditation standard would enable implementation of the standard in your school with increased effectiveness, consistency, efficiency and make a roadmap for its accreditation.

- **Duration (tentative)** : 10:30 AM onward (5-6 hours)
- **Registration Link** : <https://cutt.ly/fmg0ZuW>

### **Workshop objectives :**

#### **Workshop aims at enabling participants (principals, teachers and other stakeholders) to:**

- Understand difference between affiliation, recognition and accreditation.
- Understand accreditation, its purpose and benefits.
- Understand terminologies associated with quality and accreditation standard for quality school governance.
- Understand key domains, standards and parameters of the standard in detail.
- Understand factors (internal and external) that impact school's functioning.
- Understand concept of mission, quality objectives and their linkages with the activities of the school.
- Understand the use of documentation as a tool for enhancing quality.
- Understand the use of action research in schools as a tool for continuous improvement.
- Understand systematic data analysis in school's context.
- Understand the importance of periodic data driven reviews and performance review meetings.

- Understand the concept of innovation and benchmarking.
- Understand importance of self-assessment and its usage to improve the functioning.
- Enable implementation of the standard for school to operate with increased effectiveness, consistency, efficiency and make a roadmap for its accreditation.
